B. B. JONES BUYS RECTOR ROYALTY

The purchase of the Rector Royalty by B. B. Jones, a prominent Tulsa oilman, is the latest in a series of acquisitions which have been made by him in the oil fields. The Rector Royalty is one of the largest and most valuable in the Tulsa oil field. It covers an area of about 10,000 acres and is situated in the heart of the oil field. The purchase of this royalty by Mr. Jones is a significant addition to his oil holdings and is expected to increase his production and profits.

GULF TANKER IS VICTIM OF GERMANS

The reported sinking of the American tanker, *Cliffhanger*, by a German submarine, caused much excitement in Tulsa. The tanker was en route to the Gulf of Mexico and was carrying a large cargo of oil. The sinking of the tanker is a significant loss to the American oil industry and is a clear violation of international law. The American government has demanded that the German government pay compensation for the loss of the tanker and its cargo.

STANDARD OIL STOCKS

The Standard Oil stocks have been in a steady decline since the beginning of the year. This is due to a number of factors, including the sinking of the *Cliffhanger* and the general uncertainty in the oil market. However, some analysts believe that the decline is temporary and that the stocks will soon recover.

Positive Relief For Constipation

The progress of modern medical science is, perhaps, no more forcibly evident than in the amplification of many of the old-time remedies of past generations. For instance, the harsh cathartics and violent purgatives used by our forefathers to relieve constipation are now known to be not only unnecessary, but really harmful. Constipation can be more effectively relieved without the discomfort and pain of old-time remedies.
